

Environmental Policy

Meters UK Ltd accepts responsibility for the harmful effects its operations could have on both the local and global environment and is committed to reducing them. It will measure its impact on the environment and set on-going targets for improvement.

The company will comply with all relevant environmental legislation and implement a training programme for its staff to raise awareness of environmental issues and enlist their support in improving the Company's performance.

The key points of implementing the policy are:

- To minimise waste by evaluating operations and ensuring they are as efficient as possible.
- To minimise toxic emission through the selection and use of its fleet and the source of its power requirement.
- To actively promote recycling both internally and amongst its customers and suppliers.
- To source and promote a product range to minimise the environmental impact of both production and distribution.
- Meet or exceed all the environmental legislation that relates to the Company
