

# SmartLink45<sup>®</sup>

## PROGRAMMING THE AMOR X6

The device has a retractable lanyard attached which can be secured to a suitable surface with the screw provided.

To switch the device on press the power button for 2 seconds.

Once the device has finished starting up it will show the message "Loading ..." in the bottom left hand corner.

To connect to your WiFi network tap the screen **5 times** to bring up the PIN dialog box and enter

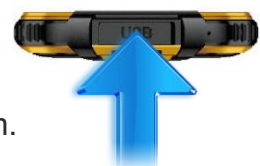

**555929** then press "OK"

Select your network from the drop down list and enter your WiFi password then press "SAVE".

### CHARGING

The battery should last several days between charges.

To charge the device connect the USB charger supplied to the connector at the bottom.

If the device will not be used for a while it can be switched off by pressing the power button for 2 seconds then selecting "Power off"
